

CNC Lathes

**BOLEY**

**BOLEY BC32**

Machine neuve

N° de stock : **C5052**

|                                    |                       |
|------------------------------------|-----------------------|
| Capacità di barre                  | 32 mm                 |
| Velocità di rotazione del mandrino | 8000 tir/min          |
| Corsa longitudinale                | 130 mm                |
| Numero degli strumenti             | 12                    |
| Peso approssimativo                | 2000 Kg               |
| Dimensioni                         | 2110 x 1160 x 1600 mm |

| Boley GmbH<br>Esslingen-Germany |                        |
|---------------------------------|------------------------|
| Type:                           |                        |
| Type:                           |                        |
| Type:                           |                        |
| Maschinen-Nr.:                  |                        |
| Machine-No.:                    |                        |
| Machine-No.:                    |                        |
| Nettspannung:                   |                        |
| Line voltage:                   | 3 / PE - 500kV - 210 V |
| Tension de réseau:              |                        |
| Wechselspannung:                |                        |
| Control voltage:                | V AC                   |
| Tension de commande:            | V DC                   |
| Leistung:                       |                        |
| Complex power:                  | kVA                    |
| Power output:                   |                        |
| Normen:                         |                        |
| Norminal current:               | A                      |
| Current nominal:                |                        |
| Motor:                          |                        |
| Motor:                          | kg                     |
| Motor:                          |                        |
| Hersteller:                     |                        |
| Year of construction:           |                        |
| Atelier de fabrication:         |                        |
